

Helping children connect with nature and increase environmental awareness through education and hands-on activities

# Nature Day Camp

## 2010 Programs

URWA's Nature Day Camp programs offer children a unique outdoor learning experience. By using nature as a classroom, children develop a strong appreciation for the outdoors, and learn how to protect our natural environment. Each course is led by URWA's Associate Naturalists and trained assistants. Campers discover wildlife, habitats, adaptations, plants, and more through field activities, stories, crafts and hands-on projects.
